

Cal-Airra™

Micro-Comfort Soft and Pleasant Yarn

Cal-Airra® is an optimal combination of an acrylic with modified cross-section and a micro bulky acrylic.
This soft and pleasant yarn achieves both softness and a feeling of volume.

- **The secret of softness**
Softness realized by a superfine micro fiber and a fiber with a modified cross-section
- **The secret of fluffiness**
The surface is wrapped by fibers with modified cross-sections and firmly supported by micro bulky fibers
- **This soft and pleasant yarn, which also features excellent coloration characteristics, can even be washed in household washing machines**
